

TWELVE-MILE GAIN BY POLISH TROOPS, WARSAW'S CLAIM

Brasloff In Command of Bolshevik Army—Moscow
Also Reports Success.

WARSAW, May 21 (Associated Press)—Polish troops, counter-attacking Bolshevik forces on the northern sector of the battlefield, have driven the Soviet Armies back twelve miles near Kraysopol, according to an official statement.

The statement declares that on the middle Berezina sector the Bolsheviks were repulsed when they tried to force their way across the river.

Gen. Alexis A. Brusloff, former Commander in Chief of Russian

Armies, is understood to have assumed command of the Bolshevik offensive against Poland. Polish military authorities say the Soviet attack is designed to overrun Lithuania and extend the Bolshevik front westward to East Prussia.

Military authorities here declare vast stores of munitions and sup-

plies have arrived in East Prussia in anticipation of a break in the Polish front before the Bolshevik offensive. Information indicating some reinforcements in Germany are determined to help the Russian Bolsheviks continues to be received here. The latest report is regarding Upper Silesia, where German armed forces have been as-

sembling on the borders of the piebald area. Newspapers here today published dispatches stating that 4,000 security guards had arrived in Upper Silesia by special train.

LONDON, May 21.—Russian Soviet troops are continuing their pursuit of

the poles in the region of Polotsk, on the Dvina River, according to an official received here by wireless from Moscow. The statement adds: "In the direction of Pskov, the enemy's attempts to advance northward of Zhlobin, have been repulsed. In the Borisov region, further south,

We have occupied a number of villages after fierce fighting. In crossing the Berezina River our troops were assisted by a squadron of airplanes. In the Kiev region nothing important is reported, but we have taken a number of villages northwest of Zvenigrod."
